

Web Developer

Hileman Group is an organization of smart, talented and passionate people who work at the intersection of Marketing, Creativity and Technology to create smart digital solutions. Driven to deliver great search engine rankings, rock-solid information architecture, responsive designs, climbing conversion rates and top-notch CMS systems, Hileman Group has become a trusted partner to many large organizations in Northeast Ohio and across the United States.

Guided by core values of Client First; Winning Together; Make Mom Proud; Do Great Work; and Growth-Oriented, Hileman Group has seen considerable growth over the last several years and was most recently recognized as a 2016 Weatherhead 100 winner.

If you espouse Hileman Group values, and are looking to join a best-in-class digital agency, we encourage you to apply for this opportunity for a Web Developer.

The Role:

The Web Developer will work in collaboration with the Hileman Group technology team in the development and maintenance of client systems that are built upon Microsoft stack technologies. The successful candidate will need to be proficient across the ASP.Net C# Microsoft technology stack, and be able to use that knowledge to help implement best-in-class solutions to clients.

The Candidate:

Strong candidates will be problem solvers, willing to learn and deliver new services, able to work in a fast-paced environment, are self-motivated, and adaptable to an ever-changing industry. Resourceful, flexible, continuous improvers and client oriented are other important attributes highly desired in a candidate.

The Responsibilities:

- Assist with and sometimes lead new development projects as assigned including the development of new client websites using ASP.Net MVC along with Web Forms
- Research and create solutions for issues currently existing within client systems
- Identify, troubleshoot and debug defects in designated application code
- Create unit tests for currently existing web and windows based applications
- Design and implementation of new code modules
- Be accountable for meeting delivery dates on assigned projects and tasks
- Peer review code of other technology team members

Web Developer

The Requirements:

- Bachelor's degree in Computer Science or related field or equivalent experience
- 4+ years of experience building applications utilizing the Microsoft stack (.Net framework, ASP.Net Web Forms & MVC, Transact SQL, C#)
- Proficiency with HTML/CSS/JavaScript
- Experience working with Sitecore, Kentico or related CMS is preferred, but not required
- Experience working with relational databases
- Must have strong problem solving skills
- Excellent attention to detail is required
- Good communicator and team player

Hileman Group is an EEO/AA Employer, M/F/D/V

The Application Process:
